# Top 10 shortcuts to great printing

Let's be honest: Even the best printer manuals can be a little overwhelming to digest in one sitting. Once you get past the basics (like plugging in your machine), use the following tips to get the most out of your new All-in-One fast!\*

- 01 For best results, be sure that you have the most updated printer driver and HP's free photo software, Photosmart Essential, installed on your computer.
- 02 Learn about the self-test diagnostic page.
- 03 Fill out your all-you-need-to-know-about-your-printer form (page 10 of this booklet).
- 04 Sign up to receive the HP Newsgram, your customizable source for product support tips, creative project ideas and productivity pointers.
- 05 Learn about your printer settings to manage print quality (and ink usage).
- 06 Set up your fax header to print your name and number on faxes you send.
- 07 Test fax setup to see what your faxes look like on the receiving end.
- 08 Set up fax speed-dial entries for your most frequently faxed numbers.
- 09 Stock up on the most common special media you'll probably need—HP Brochure and Flyer paper, Premium Plus Photo paper, and Original HP ink cartridges. They're designed to ensure quality prints that last for generations.
- 10 Put your printer manual and proof of purchase in a place you'll remember!

\* (Unless otherwise noted, you can refer to your manual's index for detailed instructions.)

# Three easy printing how-tos

## 01 Double-sided printing (Windows)

- Make sure your duplexer is installed and your paper is loaded.
- With your document open, select **Print** from the **File** menu on your computer.
- Select either **Setup**, **Properties**, or **Preferences**.
- Click the **Features** tab.
- Select the **Two-sided printing** drop-down list.
- Change any other settings, then click **OK**.

## 02 Printing borderless

- Select **Print** from the **File** menu on your computer.
- Select **Properties**.
- Click the **Paper/Quality** tab.
- Select the correct paper size from the "**Size is**" drop-down list.
- Check the box for **Borderless Printing**.
- Select the correct paper tray from the "**Source is**" drop-down list.
- Select the paper type from the "**Type is**" drop-down list.
- If you're printing photos, select **Best** from the **Print Quality** drop-down list.
- Click **OK**.

## 03 Select and print photos from a proof sheet

- Use a dark pen or pencil to fill in the circle under each image on your proof sheet that you want to print. To print more than one copy, fill in the second and third circles, too.
- Load the proof sheet, print-side down on the right-front corner of the glass, and close the lid.
- Make sure the same memory card or storage device you used to print the proof sheet is still inserted.
- Make sure you have photo paper loaded.
- Press the **Photo Menu** button.
- Press the **Proof Sheet** button.
- Press the arrow keys to select **Scan**, and then press **OK**. Your printer will scan the proof sheet and print the selected photos.

# Printer sample pack contents and simple instructions

We've created an assortment of printing projects to showcase what your new printer can do.

**Important first step:** Simply type your information in the spaces provided on the letterhead and it will automatically appear in the subsequent projects.
